PURENESS

Water softener refined tablet salt

we produce Purest salt which offers highest purity and guarantees an optimal, residue-free, for clean and efficient water softening for clean and efficient water softening

pureness complies with EN 973 on softening water for human consumption.

Designed for accurate aand consistent dosing, they are the perfect solution for both small-scale installations and large-scale treatment systems.

Our plants in Egypt, along with a nationwide logistics network, allow us to ensure rapid, on-time deliveries from single pallets to full loads.

Our commercial and technical team is also always available to provide quick responses and tailored support, offering efficient, dependable service at every stage of the customer journey.

Pureness offers maximum purity, very good pourability and guarantees.

constantly high process reliability and an optimal, residue-free dissolving process.

Pureness salt tablets are formed by high pressing fine salt under carefully controlled conditions to ensure consistency, purity and quality.

Our salt tablets are hard compressed, non-dusty and good cylinder (round) shaped, and dissolve slowly to form a brine solution.

PURENESS

Water softener refined tablet salt

Our products and services are tailored to meet the needs of customers in all segments of the salt market. Perfect for use of regeneration of ion exchangers in domestic and commercial water softening softeners.

- Pure tablet salt with no additives.
- High-pressure compacted.
- Guarantee the faultless operation of the ion exchange.
- Reduced consumption of laundry detergents, cleaning agents and less energy consumption.
- Minimal ecological footprint.
- Environment-friendly.

Constituent	Result %	Ref.Test Method
Moisture	0.67	ASTM E534-03
Purity (as sodium chloride)	99.50	
Water Insoluble Matter	0.05	
Ca++	0.06	
Mg++	0.10	
SO_4	0.45	
$CaSO_4$	0.20	
$MgSO_4$	0.38	
$MgCl_2$	0.09	

Diameter: Ø 25 mm Height: 14 mm Weight:13 gr

Available Packing: 10 kg & 25 kg & big bag

PURENESS

De icing salt for road

Our de-icing salt is designed to melt ice and snow quickly and effectively, making roads and walkways safer during winter months. It is made from high-purity sodium chloride, ensuring fast and reliable results for winter maintenance pureness complies with EN 973 on softening water for human consumption.

Key Advantages

- Efficient ice melting for roads and pathways
- Reduces risks of slips and falls
- Fast-dissolving and high purity
- Safe for use on most surfaces

Packaging & Logistics

- Available in 25 kg bags
- Strong, weather-resistant packaging
- Shrink-wrapped and palletized for export

PURENESS

De icing salt for road

Applications

- Road de-icing
- Pathway and driveway treatment
- Airport runways
- Industrial and commercial de-icing

- Designed for accurate and consistent dosing.
- Our plants in Egypt, along with a nationwide logistics network, allow us to ensure rapid, on-time deliveries from single pallets to full loads.
- Our commercial and technical team is also always available to provide quick responses and tailored support, offering efficient, dependable service at every stage of the customer journey.
- Pureness salt tablets are formed by high pressing fine salt under carefully controlled conditions to ensure consistency, purity and quality.

- Anti caking agent included
- Size 6 mm or to 12 mm
- Supply ability up to 1,000,000 MT per year
- Effective up to –12 °C
- Samples of salt are available

Packing : Available in bulk, Jumbo bags or 50kg/25kg.
Certification : SGS

PURENESS

Table Fine salt

High purity salt

Pureness high-purity food salt is produced from carefully refined vacuum-evaporated salt crystals, achieving a final purity of not less than 99.7% NaCl. Engineered for superior quality and consistency, it meets the highest standards of food processing, seasoning, and preservation.

Available in Extra Fine, Fine, Medium Fine, and Coarse grades, Purisalt delivers outstanding taste, excellent flow properties, and precise control in every application — from industrial food production to home use. Each grain reflects the purity of nature and the precision of modern technology, ensuring safety, reliability, and premium performance across all culinary and manufacturing needs.

- Premium Salt Origin – Produced from purified brine through advanced vacuum-evaporation technology, ensuring consistent crystal structure and exceptional purity.

PURENESS

Table Fine salt

High purity salt

- Guaranteed High Purity – Final product purity of ≥ 99.7% NaCl, meeting the highest standards for food-grade quality and safety.
- Multiple Grain Sizes – Available in Extra Fine, Fine, Medium Fine, and Coarse grades to suit all culinary and industrial food applications.
- Excellent Flow and Dissolution – Refined crystals flow smoothly and dissolve evenly, ensuring precise dosing and uniform taste.
- Pure Taste and Appearance – Brilliant white color and clean flavor free from impurities, additives, or aftertaste.
- Safe – Produced under strict food safety management systems, compliant with international standards for edible salt.
- Moisture-Protected Packaging – Packed in durable, sealed bags that preserve freshness, prevent caking, and ensure easy storage and handling.

PURENESS

Dishwasher salt

Dishwasher salt granular size is larger and ensures the salt dissolves slower without blocking the softener unit.

Watermarks on the glass and dish can occur when the water is hard, causing detergent to perform less effectively. Since dishwasher salt effectively softens water, these heavy deposits of limescale will not accumulate in your dishwasher and will help keep your dishes looking cleaner.
